SkillsUSA Georgia SLSC 2026

All 154 competitions from the Atlanta conference, Feb 19-21, 2026 · what you do in each

List comes from the 2026 medalists sheet. The what-you-do bullets are general summaries of how each contest typically works, not official rules. Check the SkillsUSA Georgia competition list and technical standards for exact requirements.

Construction & Building Trades 23

Cabinetmaking
- Read a cabinet plan and build a cabinet or case from it
- Measure, cut, join, and assemble to tight tolerances
- Judged on accuracy, craftsmanship, and safety

Carpentry
- Build a framed project from a blueprint using hand and power tools
- Measure, cut, and fit accurately
- Judged on accuracy, workmanship, and safe tool use

Construction Blue Print Reading
- Take an online test reading construction plans
- Find dimensions, symbols, and materials on plan sheets

Construction Math Test
- Take a written test on math used on the job site
- Calculate lengths, areas, volumes, and material quantities

Construction Technology Display
- Build a display showing a construction topic or project
- Present it to judges and answer questions

Drywall
- Hang, tape, and finish drywall panels
- Cut openings accurately
- Judged on a smooth finish and safety

Electrical Construction Wiring
- Wire a circuit panel and devices from a plan
- Follow electrical code and safety rules
- Judged on accuracy and neatness of the install

Heating, Ventilation, Air Conditioning and Refrigeration
- Complete HVAC/R tasks such as piping, brazing, and wiring
- Troubleshoot a system problem
- Take a written test

Heavy Equipment Operation
- Operate construction equipment (such as excavators and loaders) through a skills course
- Perform safety checks and basic tasks
- Runs over two days

Industrial Motor Control
- Wire and test motor control circuits from a schematic
- Troubleshoot faults in a control panel

Masonry
- Lay brick or block to a plan using a line and level
- Keep walls plumb, level, and straight
- Judged on accuracy and speed

Plumbing
- Assemble pipe, fittings, and fixtures from a drawing
- Pressure-test your work
- Judged on accuracy, code, and safety

Sheet Metal
- Cut, bend, and join sheet metal into a part from a drawing
- Judged on accuracy and craftsmanship

TeamWorks
- Work as a team of students on a construction project
- Combine carpentry, electrical, plumbing, and masonry skills
- Judged on teamwork and quality

Welding
- Make welds in several positions using common processes
- Welds are inspected and tested
- Judged on quality and safety

Welding Fabrication
- Read a drawing and build a welded part
- Cut, fit, and weld to specified dimensions

Welding Sculpture
- Design and weld a creative sculpture from metal
- Present your design to judges

Woodworking Display
- Build and display a woodworking project
- Explain your process to judges

Metal Working Display
- Build and display a metalworking project
- Explain your process to judges

Architectural Design Display
- Create and display an architectural design project
- Present it to judges

Telecommunications Cabling
- Install and terminate network and data cabling
- Test the cable runs
- Judged on accuracy and safety

Occupational Health and Safety-Single
- Take a written test on workplace safety
- Spot hazards in a scenario or a worksite

Occupational Health and Safety-Multiple
- Work with a team on workplace safety tasks
- Spot hazards and apply safety rules

Automotive, Aviation & Transportation 14

Automotive Brakes
- Inspect, diagnose, and repair brake systems
- Take a written test

Automotive Electronics/Ignition
- Diagnose electrical and ignition problems
- Use test meters and scan tools
- Take a written test

Automotive Maintenance and Light Repair
- Do routine maintenance such as fluids, tires, and inspections
- Take a written test

Automotive Refinishing Technology
- Prep, mask, and paint a panel
- Judged on finish quality and safety

Automotive Service Technology
- Diagnose and repair problems on several vehicle systems
- Take a written test
- Use tools and shop manuals

Aviation Maintenance Technology
- Do tasks such as safety wiring, fasteners, and inspection
- Follow maintenance procedures and documentation

Collision Damage Appraisal
- Inspect damaged vehicles and estimate repairs
- Write a repair estimate

Collision Repair Technology
- Repair body damage such as dents and panel work
- Judged on quality and safety

Commercial sUAS Drone
- Take a test on drone rules and operation
- Fly a drone through a set of tasks

Diesel Equipment Technology
- Diagnose and service diesel engines and systems
- Take a written test

Marine Service Technology
- Service and troubleshoot marine engines and systems
- Take a written test

Motorcycle Service Technology
- Diagnose and repair motorcycle systems
- Take a written test

Power Equipment Technology
- Service small engines and outdoor power equipment
- Take a written test

Mobile Electronics Installation
- Install audio and electronics in a vehicle
- Judged on clean wiring and quality

Manufacturing, Engineering & Drafting 17

3D Visualization and Animation
- Create a 3D model or animation on a given theme
- Use 3D software
- Judged on design and technical quality

Additive Manufacturing
- Design a part and produce it on a 3D printer
- Solve problems in the print process

Architectural Drafting
- Produce architectural drawings from a design brief
- Use CAD software

Architecture Drawing Test
- Take a written test on architectural drafting
- Read and interpret drawings

Automated Manufacturing Technology
- Work with automated production systems
- Program and troubleshoot a manufacturing cell

Basic Drafting Test
- Take an online test on drafting basics
- Read and interpret drawings

CNC 2-Axis Turning Programmer
- Program a CNC lathe to make a part
- Use drawings and code

CNC 3-Axis Milling Programmer
- Program a CNC mill to make a part
- Use drawings and code

CNC 5-Axis Milling Programmer
- Program a 5-axis CNC mill to make a part
- Use CAM software

CNC Programmer
- Program a CNC machine from a part drawing
- Use CAM or code to make the part

Mechanical Drafting Display
- Create and display mechanical drafting work
- Present it to judges

Mechatronics
- Assemble and troubleshoot systems that combine mechanics, electronics, and controls
- Program and test the system

Robotics and Automation Technology
- Build and program a robot or automated system
- Complete set challenges

Robotics-Urban Search and Rescue
- Build and program a robot
- Complete a search-and-rescue style course

Technical Drafting
- Make technical drawings with CAD software
- Follow drafting standards

Technical Drafting Test
- Take a written test on technical drafting
- Read and interpret drawings

Electronics Technology
- Build and troubleshoot electronic circuits
- Use test equipment
- Take a written test

Technology & Computing 8

Computer Programming
- Write programs to solve set problems
- Test and debug your code

Cyber Security
- Find and fix security problems in a system
- Use security tools and concepts

Information Technology Services
- Troubleshoot computer and network problems
- Help a customer with their issue

Interactive Application and Video Game Development
- Build an interactive app or game
- Present your design and your code

Internet of Things (IOT) Smart Home
- Build and program connected smart-home devices
- Complete set tasks

Internetworking
- Configure routers and switches
- Troubleshoot a network

Technical Computer Applications
- Use word processing, spreadsheet, and database tools to complete tasks
- Take a written test

Web Design and Development
- Design and build a website
- Judged on design, code, and function

Health Science 12

Basic Health Care Skills
- Show basic care skills such as vital signs and patient care
- Follow safety and infection control

CERT
- Show Community Emergency Response Team skills such as triage and first aid
- Work through emergency scenarios

Dental Assisting
- Show dental assisting skills such as instruments and setup
- Take a written test

Emergency Medical Technician
- Assess and treat patients in emergency scenarios
- Take a written test

First Aid-CPR
- Show first aid and CPR skills
- Work through scenarios
- Take a written test

Health Knowledge Bowl
- Compete in a team quiz on health care topics
- Answer questions quickly and accurately

Medical Assisting
- Show skills such as vitals and patient intake
- Take a written test

Medical Math
- Take a test on math used in health care
- Calculate doses and measurements

Medical Terminology
- Take a test on medical word parts and terms

Nurse Assisting
- Show nursing assistant skills with a patient or a mannequin
- Follow safety and infection control

Practical Nursing
- Show practical nursing skills
- Take a written test

Introduction to Personal Care Services Test
- Take a written test on personal care basics

Culinary, Hospitality & Personal Care 14

Baking and Pastry Arts
- Prepare baked goods and pastries
- Judged on taste, look, and sanitation

Barbering
- Do haircuts and shaves on a model or a mannequin
- Follow sanitation rules

Culinary Arts
- Prepare a meal from a set menu in a time limit
- Judged on taste, look, and sanitation

Restaurant Service
- Set a table and serve guests
- Judged on service and professional manner

Cosmetology
- Do hair, makeup, and nail services on a mannequin or a model
- Follow sanitation rules

Cosmetology Services II Test
- Take a written test on cosmetology skills

Cosmetology Services III Test
- Take a written test on advanced cosmetology skills

Esthetics
- Do skin care and makeup services
- Follow sanitation rules

Esthetics Design Display
- Create and display an esthetics design
- Present it to judges

Hair Design Display
- Create and display a hair design
- Present it to judges

Nail Care
- Do manicure and nail services
- Follow sanitation rules

Nail Design Display
- Create and display a nail design
- Present it to judges

Early Childhood Education
- Plan and lead an activity for young children
- Show child care skills
- Take a written test

Facilithon-Leadership in Facility Management
- Work in a team to solve a facility management problem
- Present your plan

Law & Public Safety 10

Criminal Justice
- Show law-enforcement skills in scenarios
- Take a written test

Criminal Justice Quiz Bowl
- Compete in a team quiz on criminal justice topics

Crime Scene Investigation
- Process a mock crime scene
- Collect evidence and write a report

Firefighting
- Show firefighting skills and knowledge
- Complete tasks in gear

High Risk Vehicle Stop
- Work through a vehicle stop scenario
- Follow safe procedures

Tactical Response
- Work through emergency scenarios
- Show procedures and teamwork

Trial Advocacy
- Argue a mock trial case as a team
- Take a written test

Legal Service Knowledge Test 9th/10th Grade
- Take a test on legal service topics

Legal Service Knowledge Test 11th/12th Grade
- Take a test on legal service topics

Law, Public Safety, Corrections and Security Display
- Create and display a project on a public safety topic
- Present it to judges

Communications, Design & Media

Advertising Design
- Create an ad from a client brief
- Use design software
- Present your design

Audio Production
- Record and edit an audio piece
- Judged on sound quality and creativity

Brand Design
- Design a brand identity such as a logo and style
- Present your design

Commercial
- Plan, film, and edit a short commercial
- Submitted ahead of time

Digital Cinema Production
- Plan, film, and edit a short film
- Judged on story and technical quality

Graphic Communications
- Do design, print, and production tasks
- Take a written test

Graphics Imaging-Sublimation
- Design and make a product with sublimation printing
- Judged on quality

Music Video Production
Middle School too
- Plan, film, and edit a music video
- Submitted ahead of time

Photography
- Take and edit photos on a theme
- Judged on technique and creativity

Podcast Production
Middle School too
- Plan, record, and edit a podcast
- Submitted ahead of time

Pin Design
Middle School too
- Design a pin for the competition
- Judged on creativity and fit with the theme

SkillsUSA Georgia Pin Design
Middle School too
- Design a pin for Georgia SkillsUSA
- Judged on creativity and fit with the theme

T-Shirt Design
Middle School too
- Design a T-shirt for the competition
- Judged on creativity and fit with the theme

SkillsUSA Georgia T-Shirt Design
Middle School too
- Design a T-shirt for Georgia SkillsUSA
- Judged on creativity and fit with the theme

Promotional Bulletin Board
Middle School too
- Design and build a bulletin board promoting SkillsUSA
- Judged on creativity and message

Promotional Poster
Middle School too
- Design a poster promoting SkillsUSA
- Submitted ahead of time

Promotional Video
Middle School too
- Make a short video promoting SkillsUSA
- Submitted ahead of time

Scriptwriting
Middle School too
- Write a script for a video or film
- Judged on story and format

Short Film
- Plan, film, and edit a short film
- Submitted ahead of time

Single Script Video
- Film and edit a video from one script
- Submitted ahead of time

Sports Highlight Reel
Middle School too
- Edit a sports highlight video
- Judged on editing and storytelling

Sports Hype Video
Middle School too
- Make an energetic sports promotion video
- Judged on editing and creativity

Video News Production
- Produce a news broadcast as a team
- Shoot, edit, and report

Video Production
- Plan, film, and edit a video
- Judged on story and technical quality

Vlog
Middle School too
- Make a video blog on a topic
- Judged on story and delivery

Screen Printing Technology
- Set up and print a design on a shirt
- Judged on quality

Leadership & Employability 25

American Spirit
Middle School too
- Show knowledge of American history and civics
- Present or perform as the contest directs

Applied Communications 11th/12th Grade
- Take a written test on workplace communication
- Read and write for work

Career Explorations Portfolio 9th/10th Grade
- Build a portfolio about a career you are exploring
- Present it to judges

Career Pathways Showcase - Ag, Food, Natural Resources
Middle School too
- Show a career pathway project
- Present it to judges

Career Pathways Showcase - Arts and Communication
- Show a career pathway project
- Present it to judges

Career Pathways Showcase - Business Management, Technology
Middle School too
- Show a career pathway project
- Present it to judges

Career Pathways Showcase - Health Science
- Show a career pathway project
- Present it to judges

Career Pathways Showcase - Human Services
- Show a career pathway project
- Present it to judges

Career Pathways Showcase - Industrial & Engineering Tech
Middle School too
- Show a career pathway project
- Present it to judges

Career Profile Portfolio 11th/12th Grade
- Build a portfolio of your career plan and work
- Present it to judges

Career and Technical Educator
- Compete in a contest for teachers and advisors

Chapter Business Procedure
- Hold a mock chapter meeting as a team
- Use parliamentary procedure

Chapter Display
- Build a display showing your chapter's work
- Present it to judges

Communication Skills 9th/10th Grade
- Take a written test on communication
- Speak or write to a set task

Community Service
Middle School too
- Present a chapter's service project
- Show its impact to judges

Customer Service
- Handle customer scenarios
- Judged on professional manner

Employment Application Process
- Fill out a job application and related forms
- Judged on accuracy and neatness

Entrepreneurship
- Build and present a business idea
- Answer judges' questions

Extemporaneous Speaking
Middle School too
- Draw a topic and give a short speech after brief prep
- Judged on content and delivery

Job Interview
Middle School too
- Submit a resume and application
- Interview with judges
- Judged on professionalism

Job Skill Demonstration A
Middle School too
- Demonstrate a job skill to judges
- Teach it step by step

Job Skill Demonstration Open
Middle School too
- Demonstrate a skill from any field to judges
- Teach it step by step

Opening and Closing Ceremonies
- Run the opening or closing ceremony as a team
- Use the SkillsUSA ceremony script

Prepared Speech
Middle School too
- Give a speech on a set topic
- Judged on content and delivery

School Project
- Present a project that your school completed
- Show its impact to judges

Academic Knowledge 5

Action Skills
Middle School too
- Show skill in physical and team challenges
- Work through set tasks

Mathematical Applications 11th/12th Grade
- Take a test on applied math
- Solve problems at work

Mathematical Concepts 9th/10th Grade
- Take a test on math basics
- Solve problems at work

Quiz Bowl
Middle School too
- Compete as a team in a quiz on SkillsUSA and general topics
- Answer questions quickly

Related Technical Math
- Take a test on math used in technical jobs
- Solve problems at work
